Pre-lubricated catheter

top half lubrication reduces friction during insertion

Portrait: Bastien Perret

"It's not possible for anyone to live life and never have any problems. But for every problem, there is a solution. A person just has to go out and find it."

Apogee Plus

Touch Free Intermittent Catheter System

Touch Free Protective Tip

- Helps protect the catheter tip from exposure to bacteria in the initial 15 mm of the urethral opening
- Helps reduce the risk of carrying bacteria up into the urinary system
- Serves as a guide for proper and easy insertion

Side Loaded, Pre-Lubricated Catheter

- Pre-lubricated catheter (top-half) is designed to be easier to advance
- Side loaded catheter helps reduce risk of urine backflow
- Smooth catheter eyelets aid comfortable insertion and removal

1500 mL Urine Collection Bag with Tear Strip

- Allows secure, discreet catheterization; use anywhere, anytime
- Simple to empty the collection bag using the tear strip

Additional Trusted Features

- Protective cap covers the protective tip and helps prevent leakage after use
- Latex free **

PRECAUTION:

Please consult a medical professional before using this product if any of the following conditions are present: Severed urethra, unexplained urethral bleeding, pronounced stricture, false passage, urethritis – inflammation of the urethra, prostatitis – inflammation of the prostate gland, epididymitis – inflammation of the epididymis (testicle tube). Self-catheterization should follow the plan of care and advice given by your healthcare practitioner and be carried out only in accordance with the instructions for use provided. Because catheterization frequency varies by person, the recommended frequency of your catheterization should be provided by your healthcare practitioner. For any other questions about your catheterization, please contact your healthcare practitioner.

WARNING:

To help reduce the potential risk of infection and/or other complications, do not reuse. If discomfort or any sign of trauma occurs, discontinue use immediately and consult your healthcare practitioner.

CAUTION:

Federal (USA) law restricts this device to sale by or on the order of a licensed healthcare professional. Prior to use of this device, be sure to read (i) the complete information on how to use this device including Warnings, Cautions, and Instructions for Use, and (ii) all other package inserts and labels supplied with the product and accessories.

Rx Only. Federal (USA) Law restricts this device to sale by or on the order of a physician or other healthcare practitioner licensed under state law to order this product.
